Graduate and Doctor of Medicine. Specialist in Clinical Pharmacology and Family and Community Medicine. Experience in emergency on-call care (8 years) and as a primary care physician. Consultant at the Fundación Jiménez Díaz Clinical Research Unit (UICEC-FJD) with permanent employment contract since December 2013. More than 10 years' experience in methodological support and development of independent studies and in drafting applications for clinical research projects in competitive and private calls for proposals. Member of Research Ethics committee (CEIm-FJD) of Instituto de Investigación Sanitaria Fundación Jiménez Díaz (IIS-FJD) since 2016. Head of the Technical Secretariat of the CEIm-FJD since Nov 2017. Secretary of the Scientific Integrity Committee of the IIS-FJD since its creation in September 2017. Collaborating researcher in several national and international projects. Since September 2017, Coordinator/Head of the UICEC-FJD, belonging to the Spanish Clinical Research Network (SCReN).

My duties include leading the unit's activities and ensuring their development; defining the objectives of the Unit and ensuring the training of its staff and the monitoring of the applicable procedures; reporting on the Unit's activity and preparing the annual local activity report; supervising and confirming the acceptance of independent research proposals from the centre's researchers; and supervising and confirming the acceptance of independent research proposals from the centre's researchers who can benefit from the support of the platform; to be responsible for the execution of the allocated budget and for defining the resources and planning the activities for the development of the project.

I am currently responsible for the ISCIII Platform for Clinical Research Support at the IIS-FJD (PT20/00142, PT23/00119). Teaching activities: I coordinate and participate as a lecturer in the biennial GCP course organized by IIS-FJD. I am also a lecturer on the Master's Degree in Monitoring and Clinical Trials of Fundacion Teofilo Hernando. During 2023-24 and 24-25 academic years, I have been a Clinical Teaching Assistant in Medicine Degree of Universidad Autónoma de Madrid. From 205-26, I am an associated professor of Health Sciences of Pharmacology Deparment, Faculty of Medicine in Universidad Autonoma de Madrid
